About Olvea

Olvea Vegetable Oils is specialized in the supply of a wide range of vegetable oils from conventional or organic supply chains for the cosmetic, pharmaceutical, nutraceutical and food industries..

With over 80 years of experience and know-how in the fat and oil industry, we source and select tailor-made vegetable oils suitable to your applications. All our raw materials come from supply chains which are carefully selected according to sanitary safety and production process, and closely monitored according to ISO 9001 standard and HACCP methods.

Beyond our strong motivation to offer tailored-made products to meet our customers' needs and expectations, we also work at establishing in Morocco and in Burkina Faso the foundations for a sustainable development by meeting the needs of the local population while respecting their natural environment.
