We believe in delivering meaningful Innovation

www.alcanpackagingbeauty.com

IMAGINATION REALIZED

At **Alcan Packaging Beauty**, we believe Innovation can only be delivered by looking at the big picture - not just at the product but also at process and service innovation.

Product innovation is the tip of the iceberg, focused on application performance, ease of use and extraordinary design.

Process innovation is the driving force behind the scenes, focused on competitiveness, graphics quality, material combination and enabling new designs.

Service innovation means understanding the value-chain and is focused on speed to market, global project management and the handling of complex supply chains.

On an innovation-led market, with frequent product launches and fleeting collections, we believe in making our customers' dreams come true.

With all this in mind, we offer our customers a **unique combination of global development capabilities, imaginative teams and a shoot-for-the-stars mindset.**

Merck Chemicals for Cosmetics. A wise man once said, "I don't sell cosmetics. I sell hope." In the case of Merck Chemicals we could add: hope justified by our solutions. Whatever the cosmetics – protective, personal care, color cosmetics – the innovative ingredients and pigments created by Merck Chemicals offer genuine USPs. They delay the signs of aging, provide long-term skincare protection, are well-tolerated, and make you beautiful. Confident in

our aims, we've been setting the trend for decades. We know the industry inside and out – from personal experience. From initial concepts and product development to production; premium value, skin-compatible raw materials, for personal care products designed to preserve natural beauty. Everything, under one roof. Working together with Merck Chemicals brings visible results – for you and your customers. www.merck-chemicals.com

Can Merck Chemicals enhance beauty?

Definitely!
Everything Merck Chemicals offers
for the cosmetics sector
is destined to create attractive
products and prevent worry lines.

That's what's in it for you. Merck Chemicals
