Natural cosmetics

On the subject of natural cosmetics in this issue we have collected 25 formulations from 19 suppliers. You are welcome to download the selection, free of charge, from www.cossmma.com using the access codes on the Internet button on this page.

In July we will be focussing on products for mature skin. In August anti-acne products and formulations for teenagers will be featured. All of the information published here has been carefully assembled, however neither the publishers nor the developers of these formulations can accept responsibility for their safety or accuracy.

How about, for instance, the Milky moisturizing gel from Silab or the No Stress No Shine formulation from Solabia? The Nature Be Lovin' Restorative Lotion from Arch Personal Care also sounds very interesting.

ISP

Cover-up from the sun, but don't hide from it...

For healthy, beautiful skin, ISP offers an array of sun care ingredients that help your skin survive daily solar assault. Incorporating these sun protection products in your formulation will help consumers avoid the damaging effects of the sun, while improving the look and feel of their skin. ISP's ingredients provide a wide range of formulation flexibility to deliver consumer products that are light-feeling, promote healthy, beautiful skin, repair and rebuild skin's moisture barrier, and shield skin from UVA and UVB damage.

Escalol® Family of UVA/UVB Absorbers

The Escalol products are globally approved, UVA/UVB absorbers that are ideal for all types of skin care applications including high-SPF beach products, daily-wear creams and lotions, and color cosmetics.

ProLipid® 141 & 151 Lamellar Gel Systems

ProLipid systems provide uniform dispersion of organic and inorganic sunscreens to deliver consistent SPF and improved aesthetics. ProLipid 141 is most suitable for creams and lotions, while ProLipid 151 is ideal for formulating sprayable milk and lotion products.

Ganex® Film-Formers and Allianz™ OPT

Ganex and Allianz OPT technologies are hydrophobic film formers that provide water-resistant and wear-resistant properties in skin care and beach products. Allianz OPT is the perfect ingredient for sprayable sunscreen applications. Ganex products are suitable for all other sun care formulations.

Vital ET® Phosphorylated Tocopheryl

Vital ET is a unique bio-functional complex of tocopherol phosphate that can reduce the appearance of redness and swelling on skin. Vital ET is an excellent ingredient in products targeting the effects of aging and environmental stress.

X-Tend™ 226 Sunscreen Solubilizer

X-Tend 226 is a superior solubilizer for oxybenzone and avobenzone. X-Tend 226 reduces the inherent heavy, greasy properties of high SPF sunscreen formulations resulting in a more pleasing skin feel.
