

# Ingredients suppliers

On the following pages we present our 2008 market survey of suppliers of ingredients for the cosmetics industry. In this fully updated survey we have included all of the companies that responded in good time to our questionnaire. Our survey covers about 150 companies in alphabetical order with their products and address details.

The aim of this survey is to give you a practical and easy-to-use reference work. The alphabetical list of companies makes it easy for you to see at a glance which suppliers offer what types of product. It also indicates, in the final column, any product areas in which that supplier specialises.

About 80 percent of the companies listed stated that they produce ingredi-

ents themselves. More than one third are distributors that also produce certain items themselves. More than two thirds of the companies supply active substances and almost 60 percent offer additives and basic ingredients.

Of the companies that took part in our survey about one sixth also have fragrance products in their ranges.

Plant-based ingredients are still very much in vogue and are offered by

about 80 percent of the companies listed. In contrast only about 15 percent have ingredients of animal origin. For those interested in synthesised ingredients about 60 percent of the suppliers have something to offer.

If you are an ingredients supplier and would like to be included in our survey next year please contact us now. E-mail [dorothea.michaelis@health-and-beauty.com](mailto:dorothea.michaelis@health-and-beauty.com).

Phone +49 5531 90 0  
Fax +49 5531 90 1649  
scentandcare@symrise.com  
www.symrise.com

**Profile:** Symrise is a global supplier of fragrances, flavorings and raw materials and active ingredients for the perfume, cosmetics and food industry. Its sales of € 1.27 bn in 2007 place the company among the top four in the international flavors and fragrances market. Headquartered in Holzminden, Germany, Symrise is represented in more than 30 countries in Europe, Asia, the United States and South America. With more than 40 first patent applications per year, Symrise is one of the most innovative manufacturers on the market. Used by manufacturers of perfumes, cosmetics and foods, our products are an inseparable part of daily life. At Symrise we combine an awareness of consumer trends with cutting-edge technologies, focusing on innovative fashion and lifestyle products that have additional practical value for the consumer. The Symrise Scent & Care division is responsible for the company's comprehensive lines of fragrances, mint flavors and aroma molecules. Their recently re-established business unit "Life Essentials" comprises not only cosmetic ingredients and UV filters. With a strong focus on beauty from the inside, "Life Essentials" also incorporates biochemicals (highly pure plant extracts), plantbased bioactive ingredients, health and medical food and biotechnology screening services.

#### Johann Vögele KG

Contact: Bahnhofstr. 143  
74345 Lauffen am Neckar, Germany
