Anti-acne + teenagers

On the topic of anti-acne and products for teenagers we bring you 24 formulations from 19 ingredients suppliers, all of which can be downloaded from our web site.

In September our formulations will be focussed on body care. In October it will be the turn of formulations to firm the skin. All of the information published here has been carefully assembled, however neither the publishers nor the developers of these formulations can accept responsibility for their safety or accuracy.

Thorough cleansing is the answer in cases of impure skin. There are cleansing formulations from **Croda**, **Symrise**, **Colonial Chemical**, **Cognis** and **Desert Whale Jojoba**. Among the creams offered are formulations from the suppliers **Merck**, **DSM**, **Evonik** and **Sederma**.

Profile: Symrise is a global supplier of fragrances, flavorings and raw materials and active ingredients for the perfume, cosmetics and food industry. Its sales of € 1.27 bn in 2007 place the company among the top four in the international flavors and fragrances market. Headquartered in Holzminden, Germany, Symrise is represented in more than 30 countries in Europe, Asia, the United States and South America.

With more than 40 first patent applications per year, Symrise is one of the most innovative manufacturers on the market. Used by manufacturers of perfumes, cosmetics and foods, our products are an inseparable part of daily life. At Symrise we combine an awareness of consumer trends with cutting-edge technologies, focusing on innovative fashion and lifestyle products that have additional practical value for the consumer. The Symrise Scent & Care division is responsible for the company's comprehensive lines of fragrances, mint flavors and aroma molecules. Their recently re-established business unit "Life Essentials" comprises not only cosmetic ingredients and UV filters. With a strong focus on beauty from the inside, "Life Essentials" also incorporates biochemicals (highly pure plant extracts), plant-based bioactive ingredients, health and medical food and biotechnology screening services.

Clemens Zerling

Lexicon of plant symbolism

This lexicon in German by Clemens Zerling describes the symbolism associated with over 300 plants. 200 plants, from A to Z, are presented in detailed images. There are also short pen-portraits of a further 100 plants. For each plant there is an information box giving its botanical family, its common names, time of flowering and type of blossom, any medicinal effects, and its basic significance with regard to symbolism, plant characteristics and the language of flowers.

336 pages, hard bound, € 34.90

Andreas Reinhart

Kosmetikrecht

The new practical handbook "Kosmetikrecht" (Cosmetics Legislation) pulls together all of the fragmented current legislation and looks at some relevant legal judgements, as well drawing on experience gathered in a law practice. The book also examines the monitoring of manufacturers, their obligations and transgressions, as well as looking at the purely pharmaceutical aspects of cosmetics legislation.

190 pages, paperback, € 36.00

Uschi Rollar

Parfums Edition 2008

A total of 168 new perfumes – 99 women's fragrances and 69 men's fragrances – are covered in the latest issue of this standard German language reference work for fragrance professionals. "Parfums Edition 2008 – the Year's Loveliest Fragrances" contains, in addition to details of the fragrance concept, composition and design of the new launches, news from the fragrance business, a trend report, an alphabetical listing of fragrance houses and a fragrances guide with test, plus a presentation of 4711's new look.
