for fine cosmetics · since 1926

the long-lasting moisturizer **DayMoist CLR**

**DayMoist CLR** improves the hydration level of the upper layers of the skin immediately and for at least 24 hours.

**DayMoist CLR** is a natural active ingredient potently supporting the natural moisturizing factors (NMFs) in arranging a high level of hydration in the stratum corneum.

**DayMoist CLR** has an immediate and long-lasting boosting effect. Just one single application of a cosmetic formulation containing DayMoist CLR leads to significant moisturization for at least 24 hours.

The moisturizing properties of **DayMoist CLR** have been proven objectively and reliably by a combination of two *in vivo* technologies: Confocal Raman Microspectroscopy and Corneometry.

**DayMoist CLR** is designed for all types of leave-on formulations which are intended for everyday care and moisturization of the skin.

## Who and What Personal care

This German language book covering the industry sector for 2009 contains extensive details of companies that are active in the personal care, detergents and cleaning chemicals industries: 698 manufacturers, importers and distributors, 57 contract manufacturers, 22 service companies, 45 ingredients suppliers, 27 trade associations and organisations, and 54 magazines and publications. The print edition includes the standard CD-ROM with integrated search function. The print edition with marketing CD-ROM allows the data to be exported. *20th edition, 316 pages, paperback, DIN A4, including VAT incl. standard CD-ROM, € 366.00 incl. marketing CD-ROM, € 1,058.51*

## Liquidrock Trendreports

Liquidrock's latest trend reports – the „Category Trend Insights“ have analysed the most important personal care product categories worldwide to provide businesses with creative, cost-effective expert know-ledge. Beauty Skincare, Medicated Beauty Skin, Body Care, Bath and Shower, Colour Cosmetics, Mother & Baby Care, are each covered in separate volumes. A clear forecast regarding the future potential of each category is a key part of the report. *Category Trend Insights, each € 900.00*

## Andreas Reinhart Kosmetikrecht

The new practical handbook “Kosmetikrecht“ (Cosmetics Legislation) pulls together all of the fragmented current legislation and looks at some relevant legal judgements, as well drawing on experience gathered in a law practice. The book also examines the monitoring of manufacturers, their obligations and transgressions, as well as looking at the purely pharmaceutical aspects of cosmetics legislation. *190 pages, paperback, € 36.00*

**LuxePack Monaco: 28-31 Octobre 2008 / Stand DC8-DE5**

## SUSTAINABILITY DELIVERED

At **Alcan Packaging Beauty**, we believe Sustainability can only be delivered by looking at the big picture - not just at environmental but also at social and economic impact.

**Environment-friendliness** means constantly reducing the impact of our processes, products and services.

**Social responsibility** means supporting our communities and implementing our world-class Environment, Health & Safety program and Social Responsibility Directive in all our sites.

**Economic sense** means managing sourcing and materials to reduce risks, while taking into account economical feasibility and business sustainability.

With all this in mind, we strive to provide our customers with a reliable source of information and technical guidance - and to design **new and better packaging**, using the Alcan Sustainability Stewardship Evaluation Tool (ASSET™) to measure their economic, social and environmental impact at each stage of their life cycle.

# Firming products

In this issue we have collected for you a number of formulations for skin-firming products. This is always a topical theme, and one for which we have assembled a total of 25 formulations from 20 different ingredients suppliers. If any of the formulations sound of particular interest to you, you can download them free of charge at [www.cossmacom](http://www.cossmacom). The access codes are shown on the Internet button on this page.

In November we will be turning our attention to spray and foam products. In December the subject will be formulations for lotions, creams and exfoliants. All of the information published here has been carefully assembled, however neither the publishers nor the developers of these formulations can accept responsibility for their safety or accuracy.

There is always some part or other of the body that would benefit from being a little firmer or tighter, so it's no wonder that there is an increasing number of products aimed at meeting these special needs. And when we look at the formulations that have been submitted it is clear that multifunctionality is still a hot topic. How do you like the sound of, for instance, a **Firming Shimmering Sun Lotion**, such as the one that **Croda** have submitted?

The **Power shower with skin firming active** from **Cognis** also sounds as though it could fulfil the consumer's dreams, firming her skin while she enjoys her daily shower.

And anyone who has difficulty in overcoming the temptation to lounge about and avoid physical activity must surely be very much attracted by the **No more fitness: Anti-orange peel emulsion** from **Impag**.

In the interesting selection that we have put together there is surely something for everyone. Have fun browsing through them!

**CRODA**  
 Innovation you can build on™

**Merck Chemicals for Cosmetics.** A wise man once said, "I don't sell cosmetics. I sell hope." In the case of Merck Chemicals we could add: hope justified by our solutions. Whatever the cosmetics – protective, personal care, color cosmetics – the innovative ingredients and pigments created by Merck Chemicals offer genuine USPs. They delay the signs of aging, provide long-term skincare protection, are well-tolerated, and make you beautiful. Confident in

our aims, we've been setting the trend for decades. We know the industry inside and out – from personal experience. From initial concepts and product development to production; premium value, skin-compatible raw materials, for personal care products designed to preserve natural beauty. Everything, under one roof. Working together with Merck Chemicals brings visible results – for you and your customers. [www.merck-chemicals.com](http://www.merck-chemicals.com)

Can Merck Chemicals enhance beauty?

Definitely!  
Everything Merck Chemicals offers  
for the cosmetics sector  
is destined to create attractive  
products and prevent worry lines.

That's what's in it for you. Merck Chemicals
