

At a glance

Packaging suppliers

A manufacturer that wants to do everything possible to persuade his customers to buy his products must also give careful consideration to the packaging to be that his product clearly stands out from the crowd. To facilitate your search for the ideal partner to help you in this task we have fully updated our market survey of packaging suppliers. Our handy tabular layout shows at a glance, in the different columns, who is active in which aspect of packaging supply, and who could be helpful to you. We have listed a total of 120 suppliers in this year's market survey. Particularly when you are looking for suppliers of jars, bottles or tubes a market survey like ours, with 45 different companies in that field, gives you a good choice. But, with 39 names, service

providers in the packaging industry are also well represented. Many of the suppliers also include themselves in the listing that covers packaging for colour cosmetics, where we have 32 companies. In the column headed „Most important product“ you will also see immediately whether the supplier in question has a particular speciality. If you are a packaging supplier, and cant see yourself in this survey, please just send a short e-mail to dorothea.michaelis@health-and-beauty.com. In this way you will be certain of being included in the 2009 update. Inclusion of packaging suppliers in the market survey is of course free of charge.
